V1

Acrylic dome added

V3

Surface printed in
tough, perfume
resistant ink

Laser/inkjet printed
insert

V6

Brushed silver panel
insert

Custom colour
moulded

V4

The V Series enables you to control your own naming in-house. You can:

- Use standard office software and printers to name the badges yourself. We include the card and instructions.

Or... use a standard label printer, which we can supply.

Or... for a more professional look, let us engrave replaceable panels for you – available in 7 colours plus gold & silver.

No special software required

Name Instantly!

- The badges are available in 5 colours, or can be custom moulded any of 100+ colours to complement your logo.

- For extra prominence, the badges can be foiled in a gold or silver metallic finish.

- Take advantage of our experience and free design service: let us help you make the right choice.
